

Rohit Deshmukh

Coimbatore, India

rohit.deshmukh@example.com | +91 99887 76655

Professional Summary

Mechanical design engineer with 6 years of experience taking precision sheet metal and machined assemblies from concept to production release for industrial automation equipment.

Technical Skills

CAD: SolidWorks, AutoCAD, CATIA

Analysis: ANSYS, finite element analysis, tolerance analysis, stress analysis

Manufacturing: CNC machining, sheet metal, welding, casting, injection molding

Standards: GD&T, design for manufacturability, quality control

Engineering: thermodynamics, heat transfer, fluid mechanics, hydraulics

Other: Six Sigma Green Belt, lean manufacturing, bill of materials, drafting

Work Experience

Senior Mechanical Design Engineer | Arjun Automation Works | 2020 - Present

- Designed 40+ precision sheet metal and machined assemblies in SolidWorks and **released full GD&T drawing packages to production**

- Ran finite element analysis in ANSYS on structural frames, cutting weight 18% **while meeting deflection targets**

- Led tolerance stack-up analysis that reduced assembly rework by 27%

- Partnered with CNC machining vendors on design for manufacturability reviews

- Maintained the bill of materials and engineering change process for 3 product lines

Mechanical Engineer | Sterling Tools Limited | 2018 - 2020

- Produced 2D manufacturing drawings in AutoCAD for machined components

- Supported prototyping, design validation testing and root cause investigations

- Specified materials, heat treatment and surface finishing processes

- Applied lean manufacturing principles on the production floor

Projects

Automated Palletiser Frame

- Complete mechanical design of a welded steel palletiser frame in SolidWorks, validated with ANSYS finite element analysis and released to manufacturing

Sheet Metal Enclosure Redesign

- Redesigned a control cabinet enclosure for sheet metal manufacturability, **cutting part count from 34 to 19 and unit cost by 22%**

Education

Bachelor of Engineering in Mechanical Engineering, Anna University, 2018

Certifications

- Six Sigma Green Belt

- SolidWorks Certified Professional (CSWP)

Achievements

- Filed one design patent for a quick-release fixture mechanism
